GREGORY WARREN TO LEAD IBA CONSULTING & ENGINEERING INTO SOUTHWEST ASIA MARKET

Firms Opens First International Office In Abu Dhabi, UAE

NEW YORK CITY – (July 1, 2009) – IBA Consulting & Engineering, PLLC, one of the country's leading building envelope authorities, announces a new division tailored to finding and evaluating new business opportunities internationally.

The new international division will be lead by industry veteran Gregory Warren, who will serve as director of International Business. The division will initially focus on growth areas within United Arab Emirates, where it has opened its first office in Abu Dhabi.

"In the areas we are targeting, the effects of challenging climates and condensation are major problems impacting the construction industry," states Warren. "IBA is poised to enter these markets with a streamlined process, derived from 15 years of working in extreme weather zones, to provide solutions to their waterproofing and building envelope problems.

Warren adds that IBA can assist architects and contractors alike in each step of the construction process. "From reviewing the initial drawings to monitoring quality control during the fabrication process to onsite inspecting and testing, we bring a wealth of services based on proven international and American testing standards that will add value, efficiency and cost-effectiveness for any project."

A 30-year construction professional, Warren joins IBA with more than \$3 billion worth of projects under his belt as a consultant and builder/developer. Among areas of expertise include five-star hotels, high-rise residential, high-rise class A office and mixed-used retail buildings. He has worked for some of the nation's top builders and developers, such as Bovis, Turnberry, Ltd., CMA Developers, Constructa US, and Oceania Developers.

"We are excited to have Greg guide our entry into international markets," states Mark Baker, president, IBA Consulting & Engineering. "As part of our business plan, he has already spent six months in the UAE evaluating market opportunities, developing new relationships and identifying projects that make sense for our business. From our new office in Abu Dhabi, we know Greg will do a tremendous job in representing IBA as our director of International Business."

With eight offices located throughout the United States, IBA Consultants (www.ibaconsultants.com) is the country's foremost building envelope consulting firm, specializing in the identification and elimination of potential and existing wall cladding, glazing, glass, roofing, and waterproofing system failures. Founded in 1996, with more than 4,000 successful projects to its credit, IBA has earned a reputation for excellence throughout the world through a highly trained staff with world-class qualifications.
