IBA Opens Las Vegas Office

Staff -- 4/11/2005

Las Vegas— To serve the booming Southwest and West Coast construction market, IBA Consultants announced that it has opened a full-service office in Las Vegas. This IBA's the first location outside Florida and fourth office overall (Miami, Boca Raton and Sarasota).

"The Las Vegas market is one of the fastest growing areas in the country," said Mark Baker, IBA president. "Local developers and others brought us out here because our Florida and international high-rise building experience is relevant to their projects. Since our project list grew so quickly, it made sense for us to open a full-time office to serve this market as well as the West Coast."

In Vegas, Baker notes that IBA's current projects include Turnberry Place I, II, III, IV; Residences at MGM Grand A and B; Turnberry Tower East; Marnell Corporate Center 4; The Palazzo; and Krystle Sands.

The company's office will be headed by Baker; Dave Ellwanger, business development manager; Dave Becher, glass and glazing senior consultant; Bradley Kempthorne, waterproofing and roofing senior consultant; and Sergio Salazar, project manager.

The new office is located at 6725 Via Austi Parkway, Suite 280, Las Vegas, NV 89119, phone (702) 794-4422.

IBA is one of the most experienced and respected engineering firms in the country dealing with high-rise envelope, glass and glazing consultation. More information on the company may be found at www.ibaconsultants.com.
